

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 01	Duration: 3 hours
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 8/20	Training reference: VTI-AEDA examination style

COMPREHENSIVE VOCATIONAL PAPER PRACTICE SET 01

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

PART ONE: PSYCHOPATHOLOGY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (10mks)

- Carlos, a 51-year-old university student, presents with recurrent unexpected panic attacks followed by persistent worry about more attacks or maladaptive avoidance. Which diagnosis or clinical concept best fits this presentation?
 - Obsessive-compulsive personality disorder (OCPD)
 - Bipolar disorder
 - Brief psychotic disorder
 - Panic disorder
- During assessment, Yvette reports excessive, difficult-to-control worry across several life areas for about six months, with tension, restlessness or poor sleep. Which of the following is the BEST match?
 - Major depressive disorder
 - Bulimia nervosa
 - Generalized anxiety disorder (GAD)
 - Agoraphobia
- Xavier, a 45-year-old sales representative, presents with marked fear of a specific object or situation that triggers immediate anxiety and avoidance out of proportion to the actual danger. Which diagnosis or clinical concept best fits this presentation?
 - Specific phobia
 - Agoraphobia
 - Dependent personality disorder
 - Substance use disorder
- A therapist notes that Owen has marked fear of social or performance situations because of possible scrutiny, embarrassment or negative evaluation. Which condition should be considered first from the options below?
 - Specific phobia
 - Obsessive-compulsive disorder (OCD)
 - Social anxiety disorder
 - Agoraphobia
- Quentin, a 25-year-old nurse, presents with fear and avoidance of situations where escape may be difficult or help unavailable, such as crowds, public transport or being outside alone. Which diagnosis or clinical concept best fits this presentation?
 - Agoraphobia
 - Bipolar disorder
 - Autism spectrum disorder
 - Social anxiety disorder
- A therapist notes that Uma has intrusive unwanted thoughts or urges and/or repetitive behaviors or mental acts performed to reduce anxiety. Which condition should be considered first from the options below?

- A. Obsessive-compulsive personality disorder (OCPD)
 - B. Bipolar disorder
 - C. Obsessive-compulsive disorder (OCD)
 - D. Borderline personality disorder
7. A therapist notes that Irene has after trauma, recurrent intrusions or nightmares, avoidance, negative changes in mood/cognition and heightened arousal persisting beyond one month. Which condition should be considered first from the options below?
- A. Bulimia nervosa
 - B. Post-traumatic stress disorder (PTSD)
 - C. Brief psychotic disorder
 - D. Specific phobia
8. During assessment, Uma reports at least two weeks of depressed mood and/or loss of interest with associated sleep, appetite, energy, concentration, guilt, psychomotor or suicidal symptoms. Which of the following is the BEST match?
- A. Major depressive disorder
 - B. Schizoid personality disorder
 - C. Binge-eating disorder
 - D. Post-traumatic stress disorder (PTSD)
9. Yvette, a 42-year-old university student, presents with abnormally elevated or irritable mood with increased energy, reduced need for sleep, pressured speech, grandiosity, racing thoughts and risky activity. Which diagnosis or clinical concept best fits this presentation?
- A. Major depressive disorder
 - B. Autism spectrum disorder
 - C. Stimulant intoxication
 - D. Manic episode
10. During assessment, Patricia reports a history of a manic episode, often alternating with periods of depression. Which of the following is the BEST match?
- A. Dependent personality disorder
 - B. Agoraphobia
 - C. Bipolar disorder
 - D. Specific phobia

SECTION B: ANSWER TRUE OR FALSE (5mks)

- 1. A panic attack can occur in disorders other than panic disorder. TRUE / FALSE
- 2. Obsessions are repetitive behaviors, whereas compulsions are intrusive thoughts. TRUE / FALSE
- 3. Trauma exposure can increase risk for depression, anxiety and substance-related problems. TRUE / FALSE
- 4. A single laboratory test confirms schizophrenia. TRUE / FALSE
- 5. In major depression, loss of interest or pleasure is called anhedonia. TRUE / FALSE

SECTION C: SHORT ESSAY (10mks)

- 1. Differentiate a panic attack from panic disorder. (2mks)
- 2. Differentiate obsession from compulsion and give one example of each. (2mks)
- 3. State the four D criteria commonly used when considering abnormality. (2mks)
- 4. Define substance use disorder in practical clinical terms. (2mks)
- 5. Give two reasons early intervention in substance use disorder is important. (2mks)

PART TWO: THEORIES/TECHNIQUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. Which psychotherapy concept is most accurately described by the following: the client says whatever thoughts, feelings, images or memories come to mind without censoring them?
 - A. Cognitive restructuring
 - B. Rational Emotive Behavior Therapy (REBT)
 - C. Operant conditioning
 - D. Free association
2. Which psychotherapy concept is most accurately described by the following: the therapist explains or offers meaning about patterns, defenses, dreams, resistance or behavior?
 - A. Person-centered therapy
 - B. Interpretation
 - C. Social modeling
 - D. Empty-chair technique
3. Which psychotherapy concept is most accurately described by the following: the client unconsciously avoids material or processes that threaten to bring unacceptable conflict into awareness?
 - A. Free association
 - B. Resistance
 - C. Classical conditioning
 - D. Adlerian therapy
4. A therapist working with Patricia uses an intervention characterized by the client redirects feelings, expectations or relationship patterns from important past relationships onto the therapist. Which approach or technique is being used?
 - A. Extinction
 - B. Rational emotive imagery
 - C. Interpretation
 - D. Transference
5. A therapist working with Victor uses an intervention characterized by the therapist's emotional reactions to a client, especially reactions influenced by the therapist's own history or unresolved issues. Which approach or technique is being used?
 - A. Cognitive restructuring
 - B. Extinction
 - C. Person-centered therapy
 - D. Countertransference
6. A therapist working with Rose uses an intervention characterized by therapy emphasizing unconscious conflict, early relationships, defenses, transference, resistance and insight. Which approach or technique is being used?
 - A. Dialectical Behavior Therapy (DBT)
 - B. Person-centered therapy
 - C. Empty-chair technique
 - D. Psychoanalytic therapy
7. A therapist working with Victor uses an intervention characterized by a goal-directed, socially embedded approach emphasizing conscious choice, responsibility, lifestyle and movement from inferiority toward useful belonging. Which approach or technique is being used?
 - A. Social skills training
 - B. Adlerian therapy
 - C. Systematic desensitization
 - D. Cognitive behavioral therapy (CBT)

8. A therapist working with Fidel uses an intervention characterized by a non-directive relationship based on accurate empathy, unconditional positive regard and congruence. Which approach or technique is being used?

- A. In vivo exposure
- B. Social modeling
- C. Person-centered therapy
- D. Progressive muscle relaxation

9. In a session with Esther, the counselor emphasizes a structured approach linking thoughts, emotions and behaviors and using cognitive and behavioral change strategies. This BEST illustrates:

- A. Negative reinforcement
- B. Gestalt therapy
- C. Cognitive behavioral therapy (CBT)
- D. Dialectical Behavior Therapy (DBT)

10. Which psychotherapy concept is most accurately described by the following: identifying inaccurate or dysfunctional thoughts, examining evidence and developing more balanced alternatives?

- A. Operant conditioning
- B. Cognitive restructuring
- C. Extinction
- D. Rational Emotive Behavior Therapy (REBT)

11. In a session with Victor, the counselor emphasizes Albert Ellis' approach that identifies irrational beliefs between events and emotional consequences and actively disputes those beliefs. This BEST illustrates:

- A. Exposure therapy
- B. Rational Emotive Behavior Therapy (REBT)
- C. Empty-chair technique
- D. Person-centered therapy

12. A therapist working with Martha uses an intervention characterized by an REBT imagery exercise in which the client vividly imagines a difficult event, experiences the emotion, then practices changing unhealthy emotion by changing beliefs. Which approach or technique is being used?

- A. Systematic desensitization
- B. Countertransference
- C. Rational emotive imagery
- D. Cognitive behavioral therapy (CBT)

13. Which psychotherapy concept is most accurately described by the following: a here-and-now experiential approach emphasizing awareness, contact, unfinished business and integration?

- A. Adlerian therapy
- B. In vivo exposure
- C. Gestalt therapy
- D. Cognitive behavioral therapy (CBT)

14. A therapist working with Owen uses an intervention characterized by the client speaks to an imagined person or part of self placed in an empty chair, often switching roles to deepen awareness. Which approach or technique is being used?

- A. Gestalt dream work
- B. Empty-chair technique
- C. Extinction
- D. Rational Emotive Behavior Therapy (REBT)

15. In a session with Wendy, the counselor emphasizes the client re-enacts a dream in the present and may speak as different people, objects or elements of the dream. This BEST illustrates:

- A. Progressive muscle relaxation

- B. Gestalt dream work
- C. Transference
- D. Classical conditioning

SECTION B: ANSWER TRUE OR FALSE (5mks)

1. Accurate empathy, unconditional positive regard and congruence are core person-centered conditions. TRUE / FALSE
2. Albert Ellis is the major proponent of Rational Emotive Behavior Therapy. TRUE / FALSE
3. Sigmund Freud is the foundational proponent of psychoanalytic therapy. TRUE / FALSE
4. Free association requires the therapist to censor embarrassing client material. TRUE / FALSE
5. Transference refers mainly to the therapist transferring personal feelings onto the client. TRUE / FALSE

SECTION C: SHORT ESSAY (5mks)

1. Describe the empty-chair technique. (2mks)
2. Describe progressive muscle relaxation. (2mks)
3. Define free association. (1mks)

PART THREE: PROFESSIONAL ORIENTATION AND ETHICAL/LEGAL ISSUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. A counselor asks which principle or professional concept is defined by respecting the client's right to make informed choices about treatment. The BEST answer is:
 - A. Subpoena response
 - B. Autonomy
 - C. Gift decision-making
 - D. Beneficence
2. A counselor asks which principle or professional concept is defined by acting to promote the client's welfare and benefit. The BEST answer is:
 - A. Subpoena response
 - B. Sexual relationship with a current client
 - C. Beneficence
 - D. Confidentiality
3. A counselor asks which principle or professional concept is defined by avoiding or minimizing harm. The BEST answer is:
 - A. Nonmaleficence
 - B. Ethical response to colleague misconduct
 - C. Record keeping
 - D. Mandated reporting
4. In professional practice, a situation calls for fair and equitable distribution of services, benefits, burdens and opportunities. Which ethical/legal concept is MOST directly involved?
 - A. Duty to warn/protect
 - B. Sexual relationship with a current client
 - C. Fidelity
 - D. Justice
5. During supervision, Zachary describes truthfulness and honest communication with clients. Which concept should guide the discussion?
 - A. Record keeping
 - B. Beneficence
 - C. Boundary violation
 - D. Veracity
6. In professional practice, a situation calls for keeping commitments, maintaining trust and being faithful to professional responsibilities. Which ethical/legal concept is MOST directly involved?
 - A. Record keeping
 - B. Boundary violation
 - C. Ethical response to colleague misconduct
 - D. Fidelity
7. During supervision, Hassan describes an ongoing process in which the client receives understandable information about services, risks, benefits, alternatives, limits of confidentiality and choice. Which concept should guide the discussion?
 - A. Duty to warn/protect
 - B. Informed consent
 - C. Gift decision-making
 - D. Autonomy
8. A counselor asks which principle or professional concept is defined by the professional duty to protect information learned in the therapeutic relationship, subject to recognized legal and ethical exceptions. The BEST answer is:
 - A. Confidentiality

- B. Autonomy
- C. Malpractice
- D. Ethical response to colleague misconduct

9. A counselor asks which principle or professional concept is defined by the client's broader right to control access to self, body and personal information. The BEST answer is:

- A. Beneficence
- B. Privacy
- C. Technology ethics
- D. Confidentiality

10. In professional practice, a situation calls for a legal protection that may prevent compelled disclosure of certain therapy communications in judicial proceedings, depending on jurisdiction. Which ethical/legal concept is MOST directly involved?

- A. Boundary violation
- B. Privileged communication
- C. Subpoena response
- D. Veracity

11. During supervision, Hassan describes taking reasonable protective action when a client presents a serious, credible threat toward an identifiable person, as required by applicable law and ethics. Which concept should guide the discussion?

- A. Veracity
- B. Nonmaleficence
- C. Duty to warn/protect
- D. Fidelity

12. In professional practice, a situation calls for reporting suspected abuse or other legally reportable situations to designated authorities when law or professional duty requires it. Which ethical/legal concept is MOST directly involved?

- A. Veracity
- B. Mandated reporting
- C. Dual or multiple relationship
- D. Boundary crossing

13. In professional practice, a situation calls for professional negligence in which a duty is breached and the breach causes harm. Which ethical/legal concept is MOST directly involved?

- A. Malpractice
- B. Veracity
- C. Boundary violation
- D. Mandated reporting

14. In professional practice, a situation calls for practicing only within areas supported by appropriate education, training, supervised experience and current skill. Which ethical/legal concept is MOST directly involved?

- A. Gift decision-making
- B. Professional competence
- C. Veracity
- D. Ethical response to colleague misconduct

15. In professional practice, a situation calls for a situation in which the therapist has another significant role or relationship with the client in addition to therapy. Which ethical/legal concept is MOST directly involved?

- A. Dual or multiple relationship
- B. Record keeping
- C. Nonmaleficence
- D. Privacy

SECTION B: ANSWER THE FOLLOWING QUESTIONS CORRECTLY (5mks)

1. What does duty to warn/protect mean in therapy? **(2mks)**
2. Define mandated reporting. **(1mks)**
3. State two ways a therapist should manage sexual or romantic feelings toward a client. **(1mks)**
4. What should a therapist do when credible serious unethical behavior by a colleague is suspected? **(1mks)**

SECTION C: SHORT ESSAY (5mks)

1. Differentiate privacy from confidentiality. **(2mks)**
2. Differentiate confidentiality from privileged communication. **(2mks)**
3. Define malpractice. **(1mks)**

PART FOUR: CULTURAL DIVERSITY / GROUP THERAPY / COUNSELING PROCESS / TREATMENT PLAN IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. Which counseling/group/cultural concept is BEST described by: ongoing development of awareness, cultural knowledge, clinical skills and meaningful encounters with diverse clients?
 - A. Performing stage
 - B. Skills-development group
 - C. Termination and follow-up
 - D. Cultural competence
2. In counseling practice, Samuel encounters a situation involving judging other cultures primarily by the standards of one's own culture and treating one's own as the norm. Which concept BEST applies?
 - A. Ethnocentrism
 - B. Termination and follow-up
 - C. Active listening
 - D. Psychoeducational group
3. Which counseling/group/cultural concept is BEST described by: pressuring a client to adopt the therapist's or dominant culture's beliefs, values or practices?
 - A. Psychoeducational group
 - B. Goal setting
 - C. Skills-development group
 - D. Cultural imposition
4. In counseling practice, Esther encounters a situation involving using a qualified interpreter rather than relying on a child or untrained friend when language barriers affect care. Which concept BEST applies?
 - A. Professional interpreter use
 - B. Psychoeducational group
 - C. Cultural competence
 - D. Support group
5. A trainee observes a group emphasizing mutual support, shared experience, acceptance and coping among people facing similar problems. This is an example of:
 - A. Rapport building
 - B. Support group
 - C. Ethnocentrism
 - D. Assessment
6. A trainee observes a structured group focused on teaching information, understanding a condition and coping knowledge. This is an example of:
 - A. Case formulation
 - B. Assessment
 - C. Performing stage
 - D. Psychoeducational group
7. In counseling practice, Patricia encounters a situation involving a group focused on learning and practicing specific behavioral or interpersonal skills. Which concept BEST applies?
 - A. Norming stage
 - B. Treatment plan
 - C. Skills-development group
 - D. Professional interpreter use

8. Which counseling/group/cultural concept is BEST described by: a structured group using cognitive and behavioral methods such as thought monitoring, skills practice and behavioral exercises?
- A. Cognitive-behavioral group
 - B. Storming stage
 - C. Treatment plan
 - D. Psychoeducational group
9. Which counseling/group/cultural concept is BEST described by: a recurrent functional position adopted by a member, such as scapegoat, monopolizer, peacemaker or spokesperson?
- A. Group role
 - B. Goal setting
 - C. Therapeutic confrontation
 - D. Group confidentiality
10. Which counseling/group/cultural concept is BEST described by: an agreement that members protect information disclosed by other members, while the leader explains that peer confidentiality cannot be guaranteed in the same way as professional confidentiality?
- A. Psychoeducational group
 - B. Group confidentiality
 - C. Termination and follow-up
 - D. Ethnocentrism
11. In counseling practice, Tina encounters a situation involving early group stage characterized by orientation, uncertainty, dependence and testing. Which concept BEST applies?
- A. Forming stage
 - B. Cultural competence
 - C. Intervention stage
 - D. Norming stage
12. A trainee observes group stage in which conflict, resistance, competition or emotional testing becomes more visible. This is an example of:
- A. Ethnocentrism
 - B. Active listening
 - C. Support group
 - D. Storming stage
13. In counseling practice, Fidel encounters a situation involving group stage in which cohesion, trust, norms and cooperation consolidate. Which concept BEST applies?
- A. Cultural imposition
 - B. Norming stage
 - C. Treatment plan
 - D. Psychoeducational group
14. Which counseling/group/cultural concept is BEST described by: mature working stage in which members use the group productively toward goals?
- A. Open-ended questioning
 - B. Performing stage
 - C. Cultural competence
 - D. Termination and follow-up
15. In counseling practice, Victor encounters a situation involving ending stage involving review, separation, consolidation and transfer of learning. Which concept BEST applies?
- A. Treatment plan
 - B. Cognitive-behavioral group

C. Adjourning stage

D. Termination and follow-up

SECTION B: SHORT ESSAY (10mks)

1. Outline two benefits of group therapy. **(4mks)**
2. State two characteristics of a culturally competent therapist. **(4mks)**
3. What is the counseling process? **(2mks)**

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 01	Duration: 1hr 30mins
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 14/20	Training reference: VTI-AEDA examination style

SIMULATION OF REAL WORKING SITUATION PAPER PRACTICE SET 01

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

SECTION I

1. Work stress and first counseling session

Jocelyn, 31, works as a nurse and has recently been working 11-12 hour days. she has become irritable with colleagues, sleeps poorly, has stopped seeing friends and says, "I am losing control of my life." Jocelyn has never attended counseling before and is unsure what to expect.

Carry out the first counseling session with this client. Bring out the counseling skills, assessment priorities and initial treatment planning steps you would use. (25mks)

2. Driving phobia

Rose, 38, stopped driving after a serious road accident many years ago. As a passenger he develops sweating, shaking, light-headedness and an urge to escape, except when a trusted relative drives and talks calmly. A new job now requires independent travel and Rose wants to regain driving confidence.

What therapeutic approach/technique would you use? Explain in detail how you would apply it from assessment to graded practice. (25mks)

SECTION II

1. Depression after loss

For the past three weeks, Joyce, 45, has felt sad nearly every day after losing a job. she reports loss of interest, fatigue, poor concentration, reduced appetite, insomnia and thoughts such as "I am useless and nothing will improve."

Identify the likely disorder and demonstrate a CBT-oriented session, including assessment, safety and techniques. (25mks)

2. Bereavement and person-centered counseling

Thomas, 52, recently lost a spouse and arrives tearful, disheveled and unsure whether the intensity of grief is "normal." he says family members keep telling him to "move on," which has made him stop talking about the loss.

Demonstrate how a person-centered therapist would conduct the session. Include the core conditions and appropriate assessment. (25mks)
