

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 06	Duration: 3 hours
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 8/20	Training reference: VTI-AEDA examination style

COMPREHENSIVE VOCATIONAL PAPER PRACTICE SET 06

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

PART ONE: PSYCHOPATHOLOGY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (10mks)

- During assessment, Martha reports marked fear of a specific object or situation that triggers immediate anxiety and avoidance out of proportion to the actual danger. Which of the following is the BEST match?
 - Opioid intoxication
 - Obsessive-compulsive personality disorder (OCPD)
 - Specific phobia
 - Dependent personality disorder
- A therapist notes that Patricia has marked fear of social or performance situations because of possible scrutiny, embarrassment or negative evaluation. Which condition should be considered first from the options below?
 - Social anxiety disorder
 - Schizophrenia
 - Substance use disorder
 - Dependent personality disorder
- During assessment, Wendy reports fear and avoidance of situations where escape may be difficult or help unavailable, such as crowds, public transport or being outside alone. Which of the following is the BEST match?
 - Schizophrenia
 - Obsessive-compulsive personality disorder (OCPD)
 - Agoraphobia
 - Binge-eating disorder
- A therapist notes that Victor has intrusive unwanted thoughts or urges and/or repetitive behaviors or mental acts performed to reduce anxiety. Which condition should be considered first from the options below?
 - Major depressive disorder
 - Schizophrenia
 - Obsessive-compulsive disorder (OCD)
 - Autism spectrum disorder
- During assessment, Joel reports after trauma, recurrent intrusions or nightmares, avoidance, negative changes in mood/cognition and heightened arousal persisting beyond one month. Which of the following is the BEST match?
 - Generalized anxiety disorder (GAD)
 - Post-traumatic stress disorder (PTSD)
 - Bipolar disorder
 - Substance use disorder
- A therapist notes that Zachary has at least two weeks of depressed mood and/or loss of interest with associated sleep, appetite, energy, concentration, guilt, psychomotor or suicidal symptoms. Which condition should be considered first from the options below?

- A. Major depressive disorder
- B. Agoraphobia
- C. Obsessive-compulsive personality disorder (OCPD)
- D. Specific phobia

7. Victor, a 32-year-old laboratory technician, presents with abnormally elevated or irritable mood with increased energy, reduced need for sleep, pressured speech, grandiosity, racing thoughts and risky activity. Which diagnosis or clinical concept best fits this presentation?

- A. Manic episode
- B. Specific phobia
- C. Obsessive-compulsive personality disorder (OCPD)
- D. Major depressive disorder

8. During assessment, Rose reports a history of a manic episode, often alternating with periods of depression. Which of the following is the BEST match?

- A. Bipolar disorder
- B. Dependent personality disorder
- C. Major depressive disorder
- D. Specific phobia

9. During assessment, Amina reports persistent psychotic illness with delusions, hallucinations and/or disorganized speech or behavior, often with social or occupational dysfunction. Which of the following is the BEST match?

- A. Substance use disorder
- B. Dependent personality disorder
- C. Schizophrenia
- D. Social anxiety disorder

10. Kemi, a 19-year-old teacher, presents with sudden onset of delusions, hallucinations or disorganized speech/behavior lasting at least a day but less than a month, with return toward baseline. Which diagnosis or clinical concept best fits this presentation?

- A. Panic disorder
- B. Anorexia nervosa, restricting type
- C. Brief psychotic disorder
- D. Agoraphobia

SECTION B: ANSWER TRUE OR FALSE (5mks)

1. Reduced need for sleep, grandiosity and pressured speech are compatible with mania. TRUE / FALSE
2. Bulimia nervosa necessarily requires markedly low body weight. TRUE / FALSE
3. Binge-eating disorder is defined by recurrent binge eating without regular compensatory behaviors. TRUE / FALSE
4. OCPD and OCD are identical diagnoses. TRUE / FALSE
5. Borderline personality disorder may include abandonment fears and recurrent self-injury. TRUE / FALSE

SECTION C: SHORT ESSAY (10mks)

1. Differentiate OCD from obsessive-compulsive personality disorder. (2mks)
2. Give two signs that suggest psychosis. (2mks)
3. Why must suicide risk be assessed in a severely depressed client? (2mks)
4. State two differences between GAD and a specific phobia. (2mks)
5. What does DSM refer to in psychopathology? (2mks)

PART TWO: THEORIES/TECHNIQUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. Which psychotherapy concept is most accurately described by the following: learning by association between stimuli so that a previously neutral cue comes to elicit a response?
 - A. Social skills training
 - B. Classical conditioning
 - C. Retroflexion
 - D. Adlerian therapy
2. Which psychotherapy concept is most accurately described by the following: behavior is shaped by its consequences, including reinforcement and punishment?
 - A. Progressive muscle relaxation
 - B. Cognitive behavioral therapy (CBT)
 - C. Systematic desensitization
 - D. Operant conditioning
3. A therapist working with Victor uses an intervention characterized by a behavior increases because it removes or prevents an aversive stimulus. Which approach or technique is being used?
 - A. Existential therapy
 - B. Gestalt therapy
 - C. Negative reinforcement
 - D. Free association
4. Which psychotherapy concept is most accurately described by the following: a previously reinforced behavior decreases when the reinforcement maintaining it is consistently withheld?
 - A. Extinction
 - B. Rational emotive imagery
 - C. Psychoanalytic therapy
 - D. Empty-chair technique
5. Which psychotherapy concept is most accurately described by the following: learning behavior by observing what happens to another person or by imitating a model?
 - A. Classical conditioning
 - B. Negative reinforcement
 - C. Social modeling
 - D. Progressive muscle relaxation
6. In a session with Carlos, the counselor emphasizes planned contact with feared stimuli, memories or situations while reducing avoidance so fear can be relearned. This BEST illustrates:
 - A. Resistance
 - B. Exposure therapy
 - C. Transference
 - D. Countertransference
7. A therapist working with Nadine uses an intervention characterized by direct, real-life exposure to a feared object or situation. Which approach or technique is being used?
 - A. In vivo exposure
 - B. Empty-chair technique
 - C. Cognitive restructuring
 - D. Countertransference

8. In a session with Zachary, the counselor emphasizes gradual exposure to a fear hierarchy combined with relaxation or another incompatible response. This BEST illustrates:

- A. Systematic desensitization
- B. Social modeling
- C. Extinction
- D. Exposure therapy

9. A therapist working with Kemi uses an intervention characterized by rapid and prolonged exposure to a high-intensity feared stimulus or situation without gradual hierarchy progression. Which approach or technique is being used?

- A. Flooding
- B. Rational Emotive Behavior Therapy (REBT)
- C. Rational emotive imagery
- D. Psychoanalytic therapy

10. A therapist working with Hassan uses an intervention characterized by systematically tensing and releasing muscle groups to learn physical relaxation and reduce arousal. Which approach or technique is being used?

- A. Retroflexion
- B. Negative reinforcement
- C. Progressive muscle relaxation
- D. Resistance

11. A therapist working with Nadine uses an intervention characterized by a skills-based therapy especially associated with emotion dysregulation and borderline personality disorder, using mindfulness, distress tolerance, emotion regulation and interpersonal effectiveness. Which approach or technique is being used?

- A. Gestalt dream work
- B. Operant conditioning
- C. Existential therapy
- D. Dialectical Behavior Therapy (DBT)

12. A therapist working with Lucas uses an intervention characterized by behavioral teaching and rehearsal of interpersonal skills such as greetings, eye contact, listening and conversation. Which approach or technique is being used?

- A. Social modeling
- B. Gestalt therapy
- C. Rational Emotive Behavior Therapy (REBT)
- D. Social skills training

13. In a session with Joel, the counselor emphasizes the client says whatever thoughts, feelings, images or memories come to mind without censoring them. This BEST illustrates:

- A. Operant conditioning
- B. Adlerian therapy
- C. Free association
- D. Retroflexion

14. Which psychotherapy concept is most accurately described by the following: the therapist explains or offers meaning about patterns, defenses, dreams, resistance or behavior?

- A. Interpretation
- B. Gestalt dream work
- C. Retroflexion
- D. Existential therapy

15. In a session with Zachary, the counselor emphasizes the client unconsciously avoids material or processes that threaten to bring unacceptable conflict into awareness. This BEST illustrates:

- A. Resistance

- B. Existential therapy
- C. Rational Emotive Behavior Therapy (REBT)
- D. Cognitive behavioral therapy (CBT)

SECTION B: ANSWER TRUE OR FALSE (5mks)

1. Negative reinforcement weakens behavior. TRUE / FALSE
2. Extinction involves withholding the reinforcement that has maintained a behavior. TRUE / FALSE
3. Systematic desensitization classically combines relaxation with graded exposure. TRUE / FALSE
4. Flooding is always more gradual than systematic desensitization. TRUE / FALSE
5. Gestalt therapy emphasizes present-moment awareness. TRUE / FALSE

SECTION C: SHORT ESSAY (5mks)

1. Describe the empty-chair technique. (2mks)
2. Describe progressive muscle relaxation. (2mks)
3. Define free association. (1mks)

PART THREE: PROFESSIONAL ORIENTATION AND ETHICAL/LEGAL ISSUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. During supervision, Nadine describes respecting the client's right to make informed choices about treatment. Which concept should guide the discussion?
 - A. Autonomy
 - B. Veracity
 - C. Boundary violation
 - D. Nonmaleficence
2. In professional practice, a situation calls for acting to promote the client's welfare and benefit. Which ethical/legal concept is MOST directly involved?
 - A. Beneficence
 - B. Termination and referral
 - C. Professional competence
 - D. Subpoena response
3. A counselor asks which principle or professional concept is defined by avoiding or minimizing harm. The BEST answer is:
 - A. Nonmaleficence
 - B. Duty to warn/protect
 - C. Fidelity
 - D. Ethical response to colleague misconduct
4. During supervision, Fidel describes fair and equitable distribution of services, benefits, burdens and opportunities. Which concept should guide the discussion?
 - A. Privileged communication
 - B. Professional competence
 - C. Mandated reporting
 - D. Justice
5. In professional practice, a situation calls for truthfulness and honest communication with clients. Which ethical/legal concept is MOST directly involved?
 - A. Veracity
 - B. Justice
 - C. Gift decision-making
 - D. Nonmaleficence
6. A counselor asks which principle or professional concept is defined by keeping commitments, maintaining trust and being faithful to professional responsibilities. The BEST answer is:
 - A. Subpoena response
 - B. Fidelity
 - C. Malpractice
 - D. Boundary violation
7. In professional practice, a situation calls for an ongoing process in which the client receives understandable information about services, risks, benefits, alternatives, limits of confidentiality and choice. Which ethical/legal concept is MOST directly involved?
 - A. Ethical response to colleague misconduct
 - B. Informed consent
 - C. Record keeping
 - D. Termination and referral
8. A counselor asks which principle or professional concept is defined by the professional duty to protect information learned in the therapeutic relationship, subject to recognized legal and ethical exceptions. The BEST answer is:

- A. Professional competence
- B. Confidentiality
- C. Boundary crossing
- D. Autonomy

9. During supervision, Xavier describes the client's broader right to control access to self, body and personal information. Which concept should guide the discussion?

- A. Boundary crossing
- B. Bartering
- C. Privacy
- D. Sexual relationship with a current client

10. In professional practice, a situation calls for a legal protection that may prevent compelled disclosure of certain therapy communications in judicial proceedings, depending on jurisdiction. Which ethical/legal concept is MOST directly involved?

- A. Sexual relationship with a current client
- B. Privileged communication
- C. Termination and referral
- D. Record keeping

11. During supervision, Xavier describes taking reasonable protective action when a client presents a serious, credible threat toward an identifiable person, as required by applicable law and ethics. Which concept should guide the discussion?

- A. Privacy
- B. Duty to warn/protect
- C. Gift decision-making
- D. Boundary crossing

12. A counselor asks which principle or professional concept is defined by reporting suspected abuse or other legally reportable situations to designated authorities when law or professional duty requires it. The BEST answer is:

- A. Technology ethics
- B. Mandated reporting
- C. Record keeping
- D. Veracity

13. During supervision, Rose describes professional negligence in which a duty is breached and the breach causes harm. Which concept should guide the discussion?

- A. Fidelity
- B. Malpractice
- C. Bartering
- D. Technology ethics

14. In professional practice, a situation calls for practicing only within areas supported by appropriate education, training, supervised experience and current skill. Which ethical/legal concept is MOST directly involved?

- A. Professional competence
- B. Dual or multiple relationship
- C. Privileged communication
- D. Fidelity

15. In professional practice, a situation calls for a situation in which the therapist has another significant role or relationship with the client in addition to therapy. Which ethical/legal concept is MOST directly involved?

- A. Dual or multiple relationship
- B. Nonmaleficence
- C. Veracity
- D. Record keeping

SECTION B: ANSWER THE FOLLOWING QUESTIONS CORRECTLY (5mks)

1. Differentiate confidentiality from privileged communication. **(2mks)**
2. Define malpractice. **(1mks)**
3. Give two elements of informed consent. **(1mks)**
4. When is termination ethically appropriate? **(1mks)**

SECTION C: SHORT ESSAY (5mks)

1. State one key ethical requirement for clinical records. **(2mks)**
2. Why are dual relationships ethically risky? **(2mks)**
3. What is a boundary violation? **(1mks)**

PART FOUR: CULTURAL DIVERSITY / GROUP THERAPY / COUNSELING PROCESS / TREATMENT PLAN IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. In counseling practice, Yvette encounters a situation involving collaboratively defining client-centered outcomes that are realistic and observable. Which concept BEST applies?
 - A. Goal setting
 - B. Assessment
 - C. Performing stage
 - D. Rapport building
2. A trainee observes implementing agreed therapeutic strategies and monitoring the client's response. This is an example of:
 - A. Assessment
 - B. Intervention stage
 - C. Skills-development group
 - D. Professional interpreter use
3. A trainee observes reviewing progress, consolidating coping skills, planning relapse prevention or referral and ending the professional relationship responsibly. This is an example of:
 - A. Termination and follow-up
 - B. Paraphrasing
 - C. Cultural competence
 - D. Cultural imposition
4. A trainee observes attending closely to verbal and nonverbal communication and showing the client that the message has been heard and understood. This is an example of:
 - A. Assessment
 - B. Treatment plan
 - C. Active listening
 - D. Self-disclosure
5. A trainee observes identifying and feeding back the emotional meaning expressed by the client. This is an example of:
 - A. Case formulation
 - B. Cultural imposition
 - C. Group role
 - D. Reflection of feeling
6. Which counseling/group/cultural concept is BEST described by: restating the essence of the client's content in fresh words without changing its meaning?
 - A. Rapport building
 - B. Storming stage
 - C. Paraphrasing
 - D. Norming stage
7. In counseling practice, Tina encounters a situation involving questions that invite elaboration rather than a yes/no answer. Which concept BEST applies?
 - A. Support group
 - B. Open-ended questioning
 - C. Norming stage
 - D. Forming stage
8. Which counseling/group/cultural concept is BEST described by: respectfully pointing out discrepancies between a client's words, behaviors, values or nonverbal cues?

- A. Therapeutic confrontation
- B. Forming stage
- C. Cognitive-behavioral group
- D. Reflection of feeling

9. In counseling practice, Lucas encounters a situation involving the therapist deliberately shares limited personal information when it is likely to benefit the client rather than meet the therapist's own needs. Which concept BEST applies?

- A. Goal setting
- B. Cultural competence
- C. Treatment plan
- D. Self-disclosure

10. In counseling practice, Victor encounters a situation involving a collaborative written or explicit plan linking identified problems to goals, measurable objectives, interventions and review. Which concept BEST applies?

- A. Self-disclosure
- B. Therapeutic confrontation
- C. Treatment plan
- D. Norming stage

11. A trainee observes an organized explanation linking the client's presenting problems with relevant history, triggers, maintaining factors, strengths and a rationale for intervention. This is an example of:

- A. Ethnocentrism
- B. Norming stage
- C. Assessment
- D. Case formulation

12. A trainee observes evaluating whether objectives are being achieved and modifying the treatment plan when progress is absent, circumstances change or goals are met. This is an example of:

- A. Reflection of feeling
- B. Adjourning stage
- C. Intervention stage
- D. Progress review

13. A trainee observes ongoing development of awareness, cultural knowledge, clinical skills and meaningful encounters with diverse clients. This is an example of:

- A. Professional interpreter use
- B. Cultural competence
- C. Intervention stage
- D. Cognitive-behavioral group

14. In counseling practice, Victor encounters a situation involving judging other cultures primarily by the standards of one's own culture and treating one's own as the norm. Which concept BEST applies?

- A. Intervention stage
- B. Ethnocentrism
- C. Cultural competence
- D. Professional interpreter use

15. Which counseling/group/cultural concept is BEST described by: pressuring a client to adopt the therapist's or dominant culture's beliefs, values or practices?

- A. Assessment
- B. Cultural imposition
- C. Skills-development group
- D. Rapport building

SECTION B: SHORT ESSAY (10mks)

1. Differentiate psychoeducational groups from skills-development groups. **(4mks)**
2. Define a treatment plan and list four common elements. **(4mks)**
3. Explain SMART goals. **(2mks)**

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 06	Duration: 1hr 30mins
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 14/20	Training reference: VTI-AEDA examination style

SIMULATION OF REAL WORKING SITUATION PAPER PRACTICE SET 06

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

SECTION I

1. Group support after bereavement

A counselor is asked to lead a new group for adults who have recently lost spouses. Members differ in culture, age and length of bereavement. Several say they feel isolated because friends avoid talking about grief.

Design and demonstrate the opening of this group, including group type, agreements, counseling skills, cultural issues and group-development considerations. (25mks)

2. Confidentiality and threat to another person

During therapy, Mohamed, 34, describes intense anger toward a named former partner and gives a specific plan to cause serious harm soon. Mohamed has access to the means described and asks the therapist to promise secrecy.

Explain and demonstrate the therapist's ethical response, including risk assessment, confidentiality limits, documentation and protective action. (25mks)

SECTION II

1. Child abuse disclosure in a group

In an adolescent counseling group, a 14-year-old quietly states that a caregiver has been sexually abusing her. Other members fall silent and the young person asks the counselor not to tell anyone.

Demonstrate the counselor's immediate and follow-up response, including group management, safety and mandated reporting principles. (25mks)

2. Teletherapy privacy and informed consent

A therapist plans video sessions with Peter, who lives in a crowded home and often joins from a shared device. Connection sometimes drops, and the therapist has not discussed what to do in an emergency.

Identify the major ethical issues and show how you would establish a safer teletherapy arrangement. (25mks)
