

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 10	Duration: 3 hours
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 8/20	Training reference: VTI-AEDA examination style

COMPREHENSIVE VOCATIONAL PAPER PRACTICE SET 10

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

PART ONE: PSYCHOPATHOLOGY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (10mks)

1. A therapist notes that Patricia has euphoria, increased energy and confidence, decreased need for sleep, agitation and autonomic activation. Which condition should be considered first from the options below?
 - A. Schizoid personality disorder
 - B. Stimulant intoxication
 - C. Generalized anxiety disorder (GAD)
 - D. Social anxiety disorder
2. A therapist notes that Samuel has pervasive instability in relationships, self-image and affect, impulsivity, abandonment fears and recurrent self-harm or suicidal behavior. Which condition should be considered first from the options below?
 - A. Borderline personality disorder
 - B. Opioid intoxication
 - C. Anorexia nervosa, restricting type
 - D. Social anxiety disorder
3. During assessment, Tina reports perfectionism, orderliness, rigidity and control that interfere with flexibility and task completion. Which of the following is the BEST match?
 - A. Manic episode
 - B. Opioid intoxication
 - C. Schizoid personality disorder
 - D. Obsessive-compulsive personality disorder (OCPD)
4. A therapist notes that Wendy has detachment from social relationships and restricted emotional expression with little desire for close relationships. Which condition should be considered first from the options below?
 - A. Schizoid personality disorder
 - B. Anorexia nervosa, binge-eating/purging type
 - C. Borderline personality disorder
 - D. Bipolar disorder
5. During assessment, Brenda reports excessive need to be cared for, difficulty making decisions independently, submissiveness and fear of separation. Which of the following is the BEST match?
 - A. Dependent personality disorder
 - B. Opioid intoxication
 - C. Substance use disorder
 - D. Schizophrenia
6. Patricia, a 22-year-old teacher, presents with persistent social-communication difficulties together with restricted or repetitive patterns of behavior or interests beginning in development. Which diagnosis or clinical concept best fits this presentation?

- A. Substance use disorder
- B. Opioid intoxication
- C. Autism spectrum disorder
- D. Bipolar disorder

7. Samuel, a 47-year-old university student, presents with recurrent unexpected panic attacks followed by persistent worry about more attacks or maladaptive avoidance. Which diagnosis or clinical concept best fits this presentation?

- A. Borderline personality disorder
- B. Generalized anxiety disorder (GAD)
- C. Obsessive-compulsive personality disorder (OCPD)
- D. Panic disorder

8. A therapist notes that Amina has excessive, difficult-to-control worry across several life areas for about six months, with tension, restlessness or poor sleep. Which condition should be considered first from the options below?

- A. Obsessive-compulsive disorder (OCD)
- B. Generalized anxiety disorder (GAD)
- C. Post-traumatic stress disorder (PTSD)
- D. Anorexia nervosa, restricting type

9. During assessment, Grace reports marked fear of a specific object or situation that triggers immediate anxiety and avoidance out of proportion to the actual danger. Which of the following is the BEST match?

- A. Agoraphobia
- B. Specific phobia
- C. Stimulant intoxication
- D. Binge-eating disorder

10. A therapist notes that Kemi has marked fear of social or performance situations because of possible scrutiny, embarrassment or negative evaluation. Which condition should be considered first from the options below?

- A. Dependent personality disorder
- B. Specific phobia
- C. Schizophrenia
- D. Social anxiety disorder

SECTION B: ANSWER TRUE OR FALSE (5mks)

1. Reduced need for sleep, grandiosity and pressured speech are compatible with mania. TRUE / FALSE
2. Bulimia nervosa necessarily requires markedly low body weight. TRUE / FALSE
3. Binge-eating disorder is defined by recurrent binge eating without regular compensatory behaviors. TRUE / FALSE
4. OCPD and OCD are identical diagnoses. TRUE / FALSE
5. Borderline personality disorder may include abandonment fears and recurrent self-injury. TRUE / FALSE

SECTION C: SHORT ESSAY (10mks)

1. Differentiate a panic attack from panic disorder. (2mks)
2. Differentiate obsession from compulsion and give one example of each. (2mks)
3. State the four D criteria commonly used when considering abnormality. (2mks)
4. Define substance use disorder in practical clinical terms. (2mks)
5. Give two reasons early intervention in substance use disorder is important. (2mks)

PART TWO: THEORIES/TECHNIQUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. Which psychotherapy concept is most accurately described by the following: a behavior increases because it removes or prevents an aversive stimulus?
 - A. Gestalt therapy
 - B. Flooding
 - C. Negative reinforcement
 - D. In vivo exposure
2. In a session with Rose, the counselor emphasizes a previously reinforced behavior decreases when the reinforcement maintaining it is consistently withheld. This BEST illustrates:
 - A. Exposure therapy
 - B. Extinction
 - C. Gestalt dream work
 - D. Systematic desensitization
3. In a session with Quentin, the counselor emphasizes learning behavior by observing what happens to another person or by imitating a model. This BEST illustrates:
 - A. Social modeling
 - B. Person-centered therapy
 - C. Retroflexion
 - D. Rational Emotive Behavior Therapy (REBT)
4. In a session with Uma, the counselor emphasizes planned contact with feared stimuli, memories or situations while reducing avoidance so fear can be relearned. This BEST illustrates:
 - A. Psychoanalytic therapy
 - B. Cognitive behavioral therapy (CBT)
 - C. Transference
 - D. Exposure therapy
5. Which psychotherapy concept is most accurately described by the following: direct, real-life exposure to a feared object or situation?
 - A. Psychoanalytic therapy
 - B. Systematic desensitization
 - C. In vivo exposure
 - D. Social modeling
6. In a session with Uma, the counselor emphasizes gradual exposure to a fear hierarchy combined with relaxation or another incompatible response. This BEST illustrates:
 - A. Psychoanalytic therapy
 - B. Systematic desensitization
 - C. Flooding
 - D. Social modeling
7. A therapist working with Amina uses an intervention characterized by rapid and prolonged exposure to a high-intensity feared stimulus or situation without gradual hierarchy progression. Which approach or technique is being used?
 - A. Gestalt dream work
 - B. Flooding
 - C. Retroflexion
 - D. Adlerian therapy
8. A therapist working with Zachary uses an intervention characterized by systematically tensing and releasing muscle groups to learn physical relaxation and reduce arousal. Which approach or technique is being used?

- A. Empty-chair technique
- B. Interpretation
- C. Progressive muscle relaxation
- D. Transference

9. Which psychotherapy concept is most accurately described by the following: a skills-based therapy especially associated with emotion dysregulation and borderline personality disorder, using mindfulness, distress tolerance, emotion regulation and interpersonal effectiveness?

- A. Progressive muscle relaxation
- B. Resistance
- C. Rational Emotive Behavior Therapy (REBT)
- D. Dialectical Behavior Therapy (DBT)

10. A therapist working with Victor uses an intervention characterized by behavioral teaching and rehearsal of interpersonal skills such as greetings, eye contact, listening and conversation. Which approach or technique is being used?

- A. Gestalt dream work
- B. Operant conditioning
- C. Interpretation
- D. Social skills training

11. In a session with Fidel, the counselor emphasizes the client says whatever thoughts, feelings, images or memories come to mind without censoring them. This BEST illustrates:

- A. Systematic desensitization
- B. Extinction
- C. Interpretation
- D. Free association

12. A therapist working with Esther uses an intervention characterized by the therapist explains or offers meaning about patterns, defenses, dreams, resistance or behavior. Which approach or technique is being used?

- A. Person-centered therapy
- B. Interpretation
- C. Existential therapy
- D. Extinction

13. In a session with Grace, the counselor emphasizes the client unconsciously avoids material or processes that threaten to bring unacceptable conflict into awareness. This BEST illustrates:

- A. Social skills training
- B. Adlerian therapy
- C. Resistance
- D. Transference

14. Which psychotherapy concept is most accurately described by the following: the client redirects feelings, expectations or relationship patterns from important past relationships onto the therapist?

- A. Resistance
- B. Exposure therapy
- C. Person-centered therapy
- D. Transference

15. Which psychotherapy concept is most accurately described by the following: the therapist's emotional reactions to a client, especially reactions influenced by the therapist's own history or unresolved issues?

- A. Person-centered therapy
- B. Gestalt dream work
- C. Adlerian therapy

D. Countertransference

SECTION B: ANSWER TRUE OR FALSE (5mks)

1. Negative reinforcement weakens behavior. TRUE / FALSE
2. Extinction involves withholding the reinforcement that has maintained a behavior. TRUE / FALSE
3. Systematic desensitization classically combines relaxation with graded exposure. TRUE / FALSE
4. Flooding is always more gradual than systematic desensitization. TRUE / FALSE
5. Gestalt therapy emphasizes present-moment awareness. TRUE / FALSE

SECTION C: SHORT ESSAY (5mks)

1. What is cognitive restructuring? (2mks)
2. State two principles emphasized in Adlerian therapy. (2mks)
3. What does extinction mean in behavior therapy? (1mks)

PART THREE: PROFESSIONAL ORIENTATION AND ETHICAL/LEGAL ISSUES IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. A counselor asks which principle or professional concept is defined by taking reasonable protective action when a client presents a serious, credible threat toward an identifiable person, as required by applicable law and ethics. The BEST answer is:
 - A. Professional competence
 - B. Mandated reporting
 - C. Beneficence
 - D. Duty to warn/protect
2. In professional practice, a situation calls for reporting suspected abuse or other legally reportable situations to designated authorities when law or professional duty requires it. Which ethical/legal concept is MOST directly involved?
 - A. Mandated reporting
 - B. Nonmaleficence
 - C. Technology ethics
 - D. Duty to warn/protect
3. During supervision, Hassan describes professional negligence in which a duty is breached and the breach causes harm. Which concept should guide the discussion?
 - A. Confidentiality
 - B. Malpractice
 - C. Autonomy
 - D. Duty to warn/protect
4. In professional practice, a situation calls for practicing only within areas supported by appropriate education, training, supervised experience and current skill. Which ethical/legal concept is MOST directly involved?
 - A. Subpoena response
 - B. Record keeping
 - C. Professional competence
 - D. Duty to warn/protect
5. In professional practice, a situation calls for a situation in which the therapist has another significant role or relationship with the client in addition to therapy. Which ethical/legal concept is MOST directly involved?
 - A. Dual or multiple relationship
 - B. Technology ethics
 - C. Sexual relationship with a current client
 - D. Justice
6. In professional practice, a situation calls for a departure from customary therapeutic boundaries that may be clinically appropriate and non-exploitative in context. Which ethical/legal concept is MOST directly involved?
 - A. Professional competence
 - B. Duty to warn/protect
 - C. Mandated reporting
 - D. Boundary crossing
7. A counselor asks which principle or professional concept is defined by a serious harmful or exploitative breach of therapeutic boundaries. The BEST answer is:
 - A. Gift decision-making
 - B. Sexual relationship with a current client
 - C. Professional competence
 - D. Boundary violation

- 8.** In professional practice, a situation calls for sexual or romantic involvement with a current therapy client. Which ethical/legal concept is MOST directly involved?
- A. Confidentiality
 - B. Sexual relationship with a current client
 - C. Termination and referral
 - D. Record keeping
- 9.** In professional practice, a situation calls for considering clinical meaning, value, timing, culture, power and exploitation risk before accepting or declining a client gift. Which ethical/legal concept is MOST directly involved?
- A. Sexual relationship with a current client
 - B. Autonomy
 - C. Gift decision-making
 - D. Dual or multiple relationship
- 10.** A counselor asks which principle or professional concept is defined by accepting goods or services instead of money when ethically permissible, not exploitative and not clinically contraindicated. The BEST answer is:
- A. Fidelity
 - B. Technology ethics
 - C. Veracity
 - D. Bartering
- 11.** A counselor asks which principle or professional concept is defined by maintaining accurate, timely, secure and clinically appropriate client records. The BEST answer is:
- A. Subpoena response
 - B. Record keeping
 - C. Confidentiality
 - D. Ethical response to colleague misconduct
- 12.** A counselor asks which principle or professional concept is defined by ending therapy responsibly with preparation, continuity planning and referral when needed rather than abandoning the client. The BEST answer is:
- A. Duty to warn/protect
 - B. Autonomy
 - C. Confidentiality
 - D. Termination and referral
- 13.** During supervision, Daniel describes using ethical codes, consultation/supervision and appropriate reporting procedures when credible serious misconduct is observed. Which concept should guide the discussion?
- A. Malpractice
 - B. Technology ethics
 - C. Ethical response to colleague misconduct
 - D. Nonmaleficence
- 14.** In professional practice, a situation calls for protecting privacy, competence, informed consent, identity, emergency planning and data security when using digital or remote services. Which ethical/legal concept is MOST directly involved?
- A. Sexual relationship with a current client
 - B. Technology ethics
 - C. Record keeping
 - D. Fidelity
- 15.** A counselor asks which principle or professional concept is defined by not automatically disclosing the entire file on receipt of a subpoena; consult applicable law, the client/attorney and professional guidance, and disclose only as authorized or legally required. The BEST answer is:
- A. Gift decision-making

- B. Duty to warn/protect
- C. Subpoena response
- D. Technology ethics

SECTION B: ANSWER THE FOLLOWING QUESTIONS CORRECTLY (5mks)

1. What should a therapist do when credible serious unethical behavior by a colleague is suspected? **(2mks)**
2. Differentiate privacy from confidentiality. **(1mks)**
3. Differentiate confidentiality from privileged communication. **(1mks)**
4. Define malpractice. **(1mks)**

SECTION C: SHORT ESSAY (5mks)

1. Give two elements of informed consent. **(2mks)**
2. When is termination ethically appropriate? **(2mks)**
3. State one key ethical requirement for clinical records. **(1mks)**

PART FOUR: CULTURAL DIVERSITY / GROUP THERAPY / COUNSELING PROCESS / TREATMENT PLAN IN PSYCHOTHERAPY

Section A: Multiple Choice Questions: Place a bold tick against the appropriate response option provided. (15mks)

1. Which counseling/group/cultural concept is BEST described by: reviewing progress, consolidating coping skills, planning relapse prevention or referral and ending the professional relationship responsibly?
 - A. Open-ended questioning
 - B. Termination and follow-up
 - C. Rapport building
 - D. Cultural competence
2. A trainee observes attending closely to verbal and nonverbal communication and showing the client that the message has been heard and understood. This is an example of:
 - A. Cultural imposition
 - B. Storming stage
 - C. Open-ended questioning
 - D. Active listening
3. A trainee observes identifying and feeding back the emotional meaning expressed by the client. This is an example of:
 - A. Reflection of feeling
 - B. Treatment plan
 - C. Group role
 - D. Open-ended questioning
4. Which counseling/group/cultural concept is BEST described by: restating the essence of the client's content in fresh words without changing its meaning?
 - A. Cultural competence
 - B. Group confidentiality
 - C. Paraphrasing
 - D. Open-ended questioning
5. A trainee observes questions that invite elaboration rather than a yes/no answer. This is an example of:
 - A. Open-ended questioning
 - B. Psychoeducational group
 - C. Case formulation
 - D. Self-disclosure
6. In counseling practice, Irene encounters a situation involving respectfully pointing out discrepancies between a client's words, behaviors, values or nonverbal cues. Which concept BEST applies?
 - A. Rapport building
 - B. Active listening
 - C. Paraphrasing
 - D. Therapeutic confrontation
7. A trainee observes the therapist deliberately shares limited personal information when it is likely to benefit the client rather than meet the therapist's own needs. This is an example of:
 - A. Self-disclosure
 - B. Adjourning stage
 - C. Storming stage
 - D. Progress review
8. A trainee observes a collaborative written or explicit plan linking identified problems to goals, measurable objectives, interventions and review. This is an example of:

- A. Treatment plan
- B. Forming stage
- C. Paraphrasing
- D. Group role

9. In counseling practice, Carlos encounters a situation involving an organized explanation linking the client's presenting problems with relevant history, triggers, maintaining factors, strengths and a rationale for intervention. Which concept BEST applies?

- A. Support group
- B. Cultural imposition
- C. Group role
- D. Case formulation

10. In counseling practice, Grace encounters a situation involving evaluating whether objectives are being achieved and modifying the treatment plan when progress is absent, circumstances change or goals are met. Which concept BEST applies?

- A. Progress review
- B. Adjourning stage
- C. Group confidentiality
- D. Support group

11. Which counseling/group/cultural concept is BEST described by: ongoing development of awareness, cultural knowledge, clinical skills and meaningful encounters with diverse clients?

- A. Forming stage
- B. Progress review
- C. Cultural competence
- D. Self-disclosure

12. Which counseling/group/cultural concept is BEST described by: judging other cultures primarily by the standards of one's own culture and treating one's own as the norm?

- A. Assessment
- B. Professional interpreter use
- C. Ethnocentrism
- D. Group confidentiality

13. A trainee observes pressuring a client to adopt the therapist's or dominant culture's beliefs, values or practices. This is an example of:

- A. Active listening
- B. Cultural imposition
- C. Case formulation
- D. Storming stage

14. In counseling practice, Quentin encounters a situation involving using a qualified interpreter rather than relying on a child or untrained friend when language barriers affect care. Which concept BEST applies?

- A. Professional interpreter use
- B. Group confidentiality
- C. Assessment
- D. Intervention stage

15. In counseling practice, Nadine encounters a situation involving a group emphasizing mutual support, shared experience, acceptance and coping among people facing similar problems. Which concept BEST applies?

- A. Support group
- B. Adjourning stage
- C. Cultural competence
- D. Cognitive-behavioral group

SECTION B: SHORT ESSAY (10mks)

1. Differentiate psychoeducational groups from skills-development groups. **(4mks)**
2. Define a treatment plan and list four common elements. **(4mks)**
3. Explain SMART goals. **(2mks)**

SUPERVISED VOCATIONAL QUALIFICATION DIPLOMA - EXAMINATION

Session: Revision Mock Set 10	Duration: 1hr 30mins
Specialty: Psychotherapy	Coefficient: 04
Eliminatory mark: < 14/20	Training reference: VTI-AEDA examination style

SIMULATION OF REAL WORKING SITUATION PAPER PRACTICE SET 10

Revision material based on the supplied VTI-AEDA 2025 examination format and the supplied psychotherapy course recordings. Not an official examination paper.

SECTION I

1. Adolescent substance use

Gisele, age 16, has begun using pills and alcohol several times a week after being bullied and reports skipping school. The adolescent says, "It is the only thing that calms me down," and is unsure about stopping.

Conduct an initial intervention. Include risk assessment, confidentiality limits, motivation and referral/treatment planning. (25mks)

2. Psychosis and supportive psychotherapy

Henri, 50, has a history of psychosis and recently began sleeping very little, withdrawing from family and saying that neighbors are sending coded messages through the radio. He is suspicious but willing to talk.

Show how you would conduct a safe supportive session and coordinate care. (25mks)

SECTION II

1. Eating disorder assessment

Isabelle, 57, has lost substantial weight, restricts food, fears weight gain and exercises excessively. Family members report dizziness and fainting. Isabelle insists there is no problem.

Identify the likely disorder and outline a safe psychotherapy assessment and treatment approach. (25mks)

2. Emotion dysregulation and self-harm

Jean, 64, describes rapidly shifting intense relationships, fear of abandonment, impulsive spending, recurrent self-cutting and episodes of overwhelming anger followed by shame.

What therapeutic model is particularly relevant? Demonstrate the priorities and skills you would introduce. (25mks)
